

28 June 1955

Memorandum for: Assistant Director/Operations

Subject: Allowances and other benefits for overseas personnel.

Reference is made to your memorandum to the General Counsel, dated 13 June 1955, subject as above.

This memorandum was given serious consideration at a meeting on proposed CIA legislation attended by the DD/S, Assistant DD/S, the Director of Personnel, the Comptroller, the Acting General Counsel, and the undersigned. It was the consensus of this group that the problem of payment of schooling allowances to the children of foreign national employees of your Office could be handled internally without the need for special legislation.

It was felt that appropriate adjustments could be made in the contract wages of such employees to cover the cost of such schooling and that this figure could be varied in accordance with the number of children which each employee had.

For this reason it was determined not to seek legislation to accomplish this purpose, but to suggest that it be discussed by your Office with the appropriate Agency officials in order to work out any necessary details.
